Project Name	Voice Based Concept Understanding Analyser
Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1 Discover & Start	Stage 2 Learn with AI	Stage 3 Revise & Complete
Actions <i>What does the customer do?</i>	• Open the application • Select a concept/topic • Record voice explanation	• Speech is converted to text • AI analyzes conceptual understanding • Similarity score is generated	• View feedback report • Identify weak concepts • Practice and improve explanation
Touchpoint <i>What part of the service do they interact with?</i>	• Home Page • Topic Selection • Voice Recorder	• Speech-to-Text Module • AI Similarity Engine • Audio Analysis Module	• Dashboard • Feedback Report • Performance Charts

Customer Thought <i>What is the customer thinking?</i>	• Is my explanation correct? • Will this tool help me?	• How accurate is my understanding? • What mistakes did I make?	• I know what to improve. • My conceptual understanding is getting better.
Customer Feeling <i>What is the customer feeling?</i>	• Curious • Hopeful • Interested	• Engaged • Confident • Motivated	• Satisfied • Confident • Ready for exams

Process Ownership <i>Who is in the lead on this?</i>	• Frontend & Voice Input Module	• Speech-to-Text + Semantic Understanding + Audio Analysis	• Report Generation & Visualization Module
Opportunities <i>How can we improve this stage?</i>	• Better UI • Faster voice recording • Easy topic selection	• Improve response speed • More accurate answers • Better personalization	• Progress tracking • Personalized suggestions • Downloadable reports
